CAN IT BE MADE BETTER?

We looked at popular products and started with a simple question: Can it be made better?

This led us to completely rethink how products are designed, built, and guaranteed. Each step along the way, we had you, our customer, front-and-center in our minds.

QUALITY
Made with quality materials by industry experts, offering strength and long-lasting durability to help drive your business forward.

IN STOCK
Exclusive Brands™ products are available to ship within 24 hours, helping your day-to-day operations stay on track.

INDUSTRY STANDARDS
Designed to meet or exceed industry standards, carrying our full endorsement.

SOMETHING EXTRA
Made with your business in mind and constructed with precision, offering added features and robust support components.

WARRANTY
We back each of our products with a competitive warranty for your peace of mind. Warranty length varies by product and some exclusion and restrictions apply.

GLOBAL INDUSTRIAL™ HEAVY-DUTY 18- & 20-GAUGE INDUSTRIAL STEEL SHELVING

- **X-shaped anti-sway braces increase rigidity and provide more support on uneven floors than regular lateral braces• Braces cover perimeter of rack instead of aligning at just one point**

562167A
73" | 20 gauge | 36" x 18" | 6 shelves

Customized to your special needs at no extra cost, heavy-duty steel shelving units have been engineered to adapt to your storage requirements. Ideal for stockroom, factory, or office where extra storage space is needed. Ribbed roll-formed steel shelves with integral box beam-reinforced front and rear edges for greater load capacity. Shelves are easily adjustable on 1" centers. Rib-reinforced 14-gauge 1" x 2" steel posts. Phosphatized to prevent corrosion with maximum paint adhesion. Finished in long-lasting, baked-on gray enamel.

Consists of 4 posts, specified number of shelves, 4 clips per shelf, 1 pair back braces, 2 pair of side braces, and necessary nuts and bolts.

GLOBAL INDUSTRIAL™ STEEL WIRE MESH DECKING

Strong 6-gauge gray baked-enamel finished wire decking features welded construction and 14-gauge channel supports. Unlike wood or metal decking, wire permits light, air, and sprinkler penetration; allows a clear view of upper tiers; and minimizes dust and debris accumulation. Easy installation—simply drop into place over beams. Use with beams that have 1½" or 1⅝" step.

GLOBAL INDUSTRIAL™ RACK PROTECTORS

799047

These rack protectors provide impact-resistance against forklifts, pallet jacks, and dolly carts to prevent rack damage and content spillage. Flexible EVA polyethylene construction features an air chamber designed to deflect impact energy away from the rack for added structural protection. Finish improves rack visibility in dim environments for personnel safety. Dual hook-and-loop fasteners easily secure the protectors to racks.

798929

EQUIPTO MEZZANINE WITH SOLID STEEL GRATING DECK

8′ by 12′ mezzanine; 8′ in height with safety-yellow railings, a lift gate and a 48″ wide OSHA-compliant stairway with a 4′x4′ landing. Deck is solid steel grating.

MEZZANINE SAFETY GATE

Allows easy and safe access to mezzanines using manual swing-action gates on each end. Balanced for ease of operation without use of springs. Mezzanine safety gate is made of heavy-duty welded steel. Meets OSHA requirements. 68½″W x 76″D x 79½″H.

UNEX PROVIDES UNIQUE SOLUTIONS FOR MOVING AND STORING PRODUCTS OF ALL SIZES

UNEX®

FLOW CELL HEAVY-DUTY GRAVITY RACK WITH WHEELBED STARTER

This unit has a SpanTrack wheelbed that allows front-feeds to keep products at pick point. Uprights and beams are made from powder-coated tube steel with welded plates for floor-mounting. Low-friction wheels for easy mobility with 1000-lb. capacity per level.

SPANTRACK GRAVITY FLOW ROLLER LANE

This roller track drops onto a standard rack's step beams to create gravity-flow shelving that maximizes inaccessible space, minimizes loading time, and ensures stock rotation. Aluminum rollers with galvanized steel tracks ensure durability, and no tools are required for installation. 42"D x 12"W, 50-lb. capacity.

SPEEDCELL BAY

Designed to maximize pallet rack space, the Speedcell Bay improves access and accommodates smaller items like apparel and open cases. The columns are corrosion- and fire-resistant and the whole system easily fits most pallet racks. 96"W x 42-48"D x 86"H; 84 cells.

PALLET TRACK STEEL FLOOR CONVEYOR

Ideal for fast-moving SKUs picked straight from the pallet. 96" long x 50" overall width, the track includes front ramp stops, fixed-angle rear-end stops, with mid- and rear-floor supports. 2 lanes, 8' L, 8000 lb. cap.

GLOBAL INDUSTRIAL™ 10,000 LB. HIGH-CAPACITY REEL RACKS

10,000 lb. high-capacity reel racks adjust to hold spools that measure up to 60" in diameter. The axle brackets accommodate up to 2" diameter axles for a 2000 lb. capacity per pair. Safety pins lock the axle brackets and cross beams to the 12-gauge steel upright frames. 10-gauge steel axle brackets attach to lapped and welded beams with three hooks for a positive connection. The cross beams and brackets adjust on 3" centers for large or small reels. Should be secured to floor.

ORGANIZE YOUR WORKSPACE

A properly appointed and organized workspace is essential for productivity and safety. When there's a place for tools, equipment, parts, and other work essentials, employees and technicians can more easily find what they're looking, work faster and efficiently, and it reduces instances of ordering supplies that you actually have, but cannot see—affecting your bottom line with wasted time and money.

Key Benefits:

- Perfect for the production floor, materials management, supply rooms, workstations and tool crib
- Maximize floor, counter and wall space
- Control proper rotation of date-coded supplies
- An organized workspace reduces the risk of a trip and fall incident

BEFORE

AFTER

Choosing the Perfect Bin

HANGING/STACKING BINS

Maximize wall and bench space while keeping work areas clean and organized. Most bins have front access for easier use when stacked.

SHELF BINS

Perfect for storing parts, stock, or tools on wire shelves, they maximize shelf space and improve organization, productivity, & efficiency. Stackable when empty for space-saving storage.

CORRUGATED CARDBOARD BINS

Available in a variety of sizes & styles, these bins offer organization on a budget. Replace as needed and use with non-oily items in dry areas.

DIVIDABLE GRID CONTAINERS

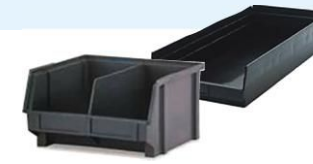
Enjoy flexible storage for small parts and components in a single bin with greater organization and stock control. Most are available with clear lids and ID holders.

4-SIDED CONTAINERS & TOTES

Available in a variety of configurations, models of the same size are stackable with their lids on and nest without lids. Options include with or without removeable lids and attached-lids.

CONDUCTIVE BINS

Conductive bins are made of carbon-filled polypropylene and protect sensitive electronic components, like circuit boards, from damage caused by electrostatic buildup.



FIBERGLASS BINS

A step up in durability from standard plastic bins, fiberglass bins are ideal for use in extreme temperature conditions or with heavy parts. They are extremely strong and resilient.

STEEL BINS

Steel bins are the strongest bins available, and can stand up to extreme temperatures, hard use, and heavy parts without failing. These bins are made of channel-reinforced steel.

Let us help you choose the perfect solution to organize your workspace

GLOBAL INDUSTRIAL™ DIVIDABLE GRID CONTAINERS

- Convenient, space-saving, organized storage for multi-sized contents
- Most efficient method of compartmentalizing and protecting small to medium parts
- Molded-in stacking ridge ensures containers will stack securely with or without covers
- Large, smooth surface area on all four sides for content identification
- Molded-in slots accept optional length and width dividers
- Conductive Grid Containers* are injection-molded with a carbon-filled copolymer polypropylene, which protects sensitive electronic components from typical electromagnetic interference (EMI). Electrostatic Decay Rate is tested to meet Mil Spec Mil-B-81075B at less than 0.1 seconds. Surface resistivity is less than 105 Ohms/Sq. when tested per ASTM-D257

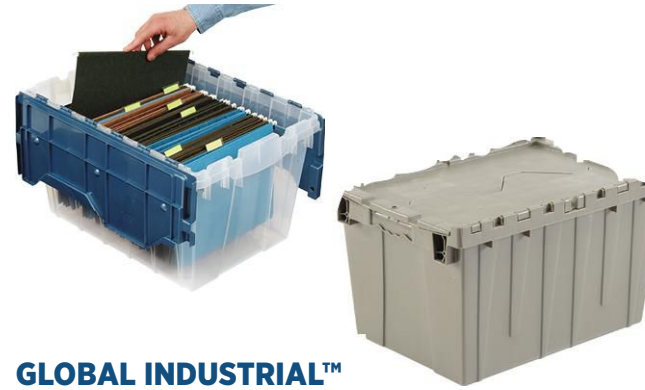
GLOBAL INDUSTRIAL™ NESTING UTILITY TOTES

- Lightweight, tough, corrugated plastic totes are steel-band reinforced at top for added strength and rigidity
- Easy-to-clear; resistant to dirt, moisture and grease
- Convenient hand-holes for carrying
- Nests for space-saving storage
- Optional snug-fitting lid protects contents against dust and dirt
- Meets US Postal Service requirements
- Measures 18½"L x 13¼"W x 12"H



GLOBAL INDUSTRIAL™ ATTACHED-LID DISTRIBUTION CONTAINERS

- Manufactured from high-grade, high-density polyethylene
- Durable, affordable, and reusable
- Containers allow nesting when not in use with lid for compact storage and to reduce return shipping costs
- Molded grid handles have an integral hasp to accept cable ties for security
- Solid textured bottom adds strength and prevents slippage on conveyor belts
- Recessed lid with grooves allows banding applications
- Clear containers provide instant visual inventory
- Model 506151 includes metal rails for hanging file folders
- Same size containers of all major brands can nest inside each other
- Specify color suffix: Gray (GY), Blue (BL) and Red (RD)

GLOBAL INDUSTRIAL™ PORTABLE EXPANDABLE CONVEYORS

Instantly set up conveyor lines for shipping, receiving, assembly, and packaging areas. Rugged 5/16" steel axles and self-tracking skate wheels with enclosed steel ball bearings offer smooth material flow. 175 lbs. per foot capacity. 7" minimum package size. Seven zinc-plated telescopic legs adjust independently from 31¾" to 40½"H to achieve maximum gravity flow and create banked curves. All units bend around a 27" radius. Includes couplers to connect additional conveyors. Widths available from 14" to 24" with 6 wheels per axle.

988295

GLOBAL INDUSTRIAL™ SPRING-ACTUATED PALLET CAROUSEL SKID POSITIONER

Ideal for building or unpacking pallet loads, the combination of heavy-duty springs and a shock-absorbing dampener maintain a constant working height without a power or air supply required. 43-5/8" diameter turntable features low-friction bearings with 360° access for nearside loading without reaching. Easy relocation by forklift and strong tubular steel frame with durable powder-coat finish for long life.

989018

GLOBAL INDUSTRIAL™ POWER SCISSOR LIFT TABLE

Provides reduced worker strain at a very affordable price. Table promotes employee safety by lifting loads to a comfortable working height. Hand-held pushbutton pendant control. Powerful 1½ HP 115V 1-phase motor and pump assembly offer years of use. Captured rollers reduce the risk of injury. Chip-resistant powder coat finish. Meets ANSI standards for lift tables.

988946

GLOBAL INDUSTRIAL™ PALLET TURNTABLE

Increase productivity and reduce muscle strain from stretching and reaching over and around loads. Precision anti-friction ball bearings allow for 360° pallet rotation by a single person. Low-profile 7/8" overall height allows pallet truck access for efficient load transfer without a pit. Includes lock to prevent unwanted rotation. Strong steel construction has chip-resistant finish. Unit can be moved; does not require lagging to the floor.

Model	Overall Dia."	Usable Dia."	Wt. Lbs.
988946	60	51	247

HIGH-TRACTION ALUMINUM DOCK PLATE

Lightweight 3/8" aluminum is strong enough to withstand heavy traffic with diamond tread surface for traction. Integrated handholds allow it to be lifted easily. The 11" apron with beveled edges and an 11° crown provide smooth, efficient entry and exit. Includes a bolted safety stop to keep plate in position. Width should be 12" wider than load. Not for use with rider trucks.

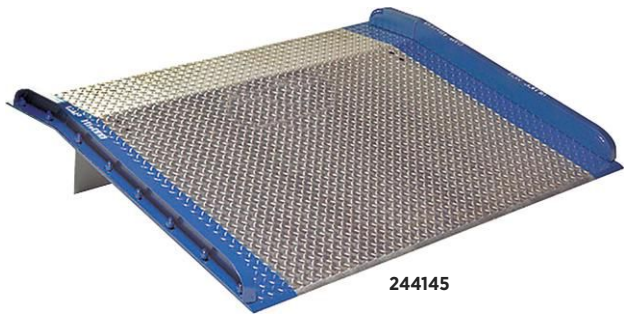
*Height is the difference above or below dock.

DOCK BOARD WITH STEEL CURBS

Full-length handgrip for safe & easy handling with a slip-resistant diamond tread surface. Beveled entry and exit edges, 11" apron, and 11° crown angle offer smooth transition between truck and dock. Safety stop underneath helps secure plate in position. Width should be 12" wider than load. Not for use with rider trucks.

Model	W"x L"	Cap. Lbs.	Wt. Lbs.
244161	60 x 48	10,000	333

TAKE A LOAD OFF, AND PUT IT ON OUR DOCKS



DOCK BOARD

Speed up loading operations, help prevent accidents, and reduce labor costs. Resilient aluminum construction with anti-skid diamond tread surface and high-visibility beveled curbs for maximum safety. Bolted-on steel curbs offer excellent impact-resistance to help prevent run-off. Safety stop on underside, so board will not move under load. An 11° angle supplied unless another angle of operation is specified. 11" entry lip with rounded nose protects tires. Meets OSHA requirements 1910.30(A).

Model	W"x L"	Cap. Lbs.	Wt. Lbs.
244145	60 x 36	10,000	127

BLUFF® EZ-PULL MECHANICAL EDGE-OF-DOCK LEVELER

Attaches easily to steel nosing of existing dock, saving valuable dock loading space. Easy positioning by lifting and pulling the self-storing handle. Counterbalanced extension spring lift to ensure one person, one hand operation. High-strength ⅜" steel safety plate and heavy-duty hinges. Automatically releases and returns to stored position when truck exits.

HOW TO SELECT THE PROPER WHEELS AND CASTERS

1 Select wheel type

HARD RUBBER - Highly resistant to water, oil, and animal fats. Heavy load-carrying capability and floor protection.

STEEL - Carbon steel casting. Unbreakable under in normal service.

SEMI-PNEUMATIC - For light-duty trailers, dollies, or hand trucks. “Puncture-proof”, no inner tube.

FULL PNEUMATIC - For handling delicate instruments or fragile parts. Floats loads over rough floors or obstructions.

MOLD-ON RUBBER - For full floor protection where greater capacities, cushioning, and less “load starting” effort is required.

MOLDED PLASTIC/POLYOLEFIN - Resistant to many chemicals and heat. High payload capacity, protects floors, easy rolling, impact-resistant.

POLYURETHANE - Long-lasting and protects floors with a high payload capacity and excellent cushioning.

2 Determine load capacity

Per caster by adding load and truck weight and dividing result by number of supporting casters. For specific recommendations consult our engineering department.

3 Wheel diameter

The greater the wheel diameter, the easier it is to move.

24163

REDUCE FATIGUE & WORRY CHOOSE THE RIGHT FLOOR MAT

The right floor mat can increase productivity by improving safety, minimizing fatigue, and easing chronic back and leg injuries. Special mats can protect sensitive electronics and offer sure footing in wet and slippery conditions.

ANTI-FATIGUE MATS

Reduce discomfort caused by standing on a hard floor for an extended period of time and help keep employees safe within your facility.

GLOBAL INDUSTRIAL™ DIAMOND PLATE ANTI-FATIGUE MAT

- Reduce back and knee strains
- Improve working conditions for employees
- Save your company in workers' comp claims and lost work days
- Help reduce insurance claims

DRAINAGE MATS

Mats built to withstand wet and dry work areas that will minimize slipping and are easy to clean

APACHE MILLS PERFORMA 100N™ MODULAR DRAINAGE MAT

- Customize to both width and length with built-in connectors
- Drainage mat allows liquid and water to pass through matting

ENTRANCE MATS

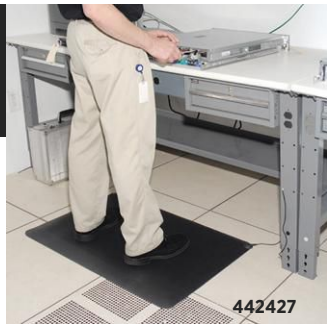
Entry mats prevent dirt and debris from being tracked into your facility, and they absorb water & moisture to help reduce the risk of slips & falls.

APACHE MILLS BRUSH & CLEAN™ ENTRANCE MAT

- For use in entryways or any light- to medium-traffic areas
- Polypropylene surface/vinyl backing
- 3/8" thick
- 18 oz. per sq yard absorption rate
- Needle-punched carpet pile

ANTI-STATIC MATS

Conductive runners allow your sensitive components to remain grounded and prevents static discharges from causing irreversible damage while offering a smooth work surface.



WEARWELL® ELECTRICALLY-CONDUCTIVE DIAMOND PLATE OR SMOOTH MAT

- Nitrile rubber composite sponge base reduces worker fatigue

DIAMOND PLATE

- 3/16" vinyl diamond plate top surface comes with 1 grounding snap per mat
- 9/16" thick diamond surface offers 5×10^5 to 1×10^7 ohms resistance

SMOOTH

- 1/8" smooth vinyl surface comes with 1 grounding snap per mat
- 1/2" thick Smooth surface offers 1×10^4 to 1×10^6 ohms resistance

RUBBERMAID® CARTS & BINS THAT ARE MAID FOR EVERY JOB.

Rubbermaid® Commercial Products

498164

PLASTIC DECK PLATFORM TRUCK

Its tough, high-impact honeycomb plastic construction is virtually maintenance-free and will not rust, dent, chip or discolor. It features a powder-coated, removable, cross-braced push handle and 8" thermoplastic rubber wheels (2 swivel, 2 rigid) for easy maneuverability. 48x24", 2000 Lb. Cap.

498402

LIGHT-DUTY PLASTIC TILT TRUCK

Designed for 1-person operation, this durable polyethylene truck efficiently handles industrial waste. It meets FDA and OSHA food and sanitary requirements, making it ideal for recyclable products. Seamless, smooth, ribbed-plastic construction cleans easily. Counterbalanced design helps to prevent "backing up" when tilting. 1 Cu. Yd. Cap, 850 Lb. Cap.

JANITOR CART WITH 25-GALLON VINYL BAG

Constructed of easy-to-clean, reinforced, smooth-walled plastic, it has compartments and hooks to organize equipment & supplies. A zippered yellow vinyl bag makes trash removal easy. Rolls on non-marking, 4" swivel casters and 8" diameter rear wheels. Bottom shelf holds a mop bucket or a 32-gallon Brute waste can. Wringer bucket and supplies sold separately.

239044BK

PLASTIC UTILITY CART

This handy, durable utility cart features rust-, dent-, chip- and peel-proof structural foam and an ergonomic push handle that improves control and worker safety. Molded-in storage compartments, holsters, hooks and notches increase usability. 500 lb. capacity. Four 5" casters, 45"L x 26"W x 33"H, 2-swivel & 2 fixed.

B55835

HYGEN® Q560 17" QUICK CONNECT WET/DRY FRAME

Easy, one-step connecting mechanism for quick mop assembly and changeover. Thin, flat frame easily reaches under low objects for thorough cleaning. Works with optional HYGEN microfiber pads. 24" frame includes pull-type squeegee for water and debris collection. Sold 6 frames per case.

B55831

HYGEN® 18" MICROFIBER MOP

High-quality, ultra-fine microfiber removes bacteria, making cleaning quick and effective. Fibers pick up and hold dust, dirt, and grime. Hypoallergenic, lint-free, nonabrasive and color-coded to improve sanitization. Double-bound edges for durability. Pads are stain-resistant and machine washable. 12 pads/case.

B2246436

SLIM JIM RECYCLING STATION, LANDFILL/ MIXED RECYCLING

An adaptable recycling solution offers a front-of-house look with back-of-house functionality. Simple lid openings help patrons and staff sort recyclables more effectively. Components snap in place without the use of hardware. Includes two 23-gallon containers.

B3082558

VENTED WHEELED BRUTE CONTAINER

This 4-pack of gray 44-gallon Brute containers feature DuraTread never-flat wheels that allow you to move loads easier, even over rough terrain, and an ergonomic handle is designed to require less force when moving heavy loads up to 175 Lbs. Venting channels make lifting out liners easier, improving productivity and reducing the risk of injury.

Large steering Wheel with Knob for easy Maneuvering

49" Width Cleaning Path

GLOBAL INDUSTRIAL™ AUTO RIDE-ON SWEEPER

- Tackle heavy-duty cleaning jobs with this ride-on sweeper
- A large-capacity hopper and water tank minimize refill time
- Cleaning width up to 49" with both side brushes
- Shake vibration technology shakes dust off the filters to improve suction
- Battery runtime up to 5 hrs

SHOP OUR GLOBAL INDUSTRIAL™ SCRUBBER COLLECTION

GLOBAL INDUSTRIAL™ AUTOMATIC SCRUBBERS

Automatic scrubbers feature rotationally-molded polyethylene tanks that are corrosion-and impact-resistant. Pad Assist models help the machine move forward by the friction of the scrub deck against the floor, but the machine needs to be tilted forward to engage spinning pad. Traction Drive/Self Propel models use an electric motor and require less effort to operate, allowing for reduced operator fatigue. Battery operated models have a 4.5 hour runtime and feature a battery energy management system with digital controller for longer runtime. Includes heavy-duty cast aluminum squeegee assembly. Large capacity solution and recovery tanks allow for low maintenance. 3 Year Limited Warranty; Lifetime Warranty On Housing.

641820

CAT® C70RX AUTO RIDE-ON SWEEPER WITH A/C CABIN

Thanks to its large-capacity tanks and array of side and center roller brushes, this sweeper boasts a wide 70″ cleaning path that cleans 204,514 sq. ft/hr. It is outfitted with technology that shakes dust off the filters and a front mister that provides both dust suppression and consistent suction. For safety, it has a rearview backup camera, turn signals, seatbelt, LED headlight, blue safety light, and a non-slip platform

CAT® FLOOR MACHINES, VACUUMS AND SWEEPERS. AVAILABLE AT GLOBAL INDUSTRIAL™.

641747

CAT® C40R AUTO RIDE-ON FLOOR SCRUBBER

With a 40″ cleaning path, excellent brush pressure, a 220 RPM motor, and 73,518 sq. ft/hr of coverage, this scrubber has safety features that include a seatbelt, front warning light, front bumpers, and a non-slip platform.

641748

CAT® C49R AUTO RIDE-ON SWEEPER

Equipped with two independent side brushes that provide a wide 49” cleaning path, the CAT® C49R is ideal for use on concrete, ceramic tile, marble, and other hard surfaces; and it can handle ramps & inclines up to 18%. Self-cleaning filters and a front water mister provide dust suppression and consistent suction, while the seatbelt, bright LED headlight, and a non-slip diamond tread platform help keep the rider safe.

CAT® C26R AUTO RIDE-ON FLOOR SCRUBBER

- 26″ cleaning path with a cleaning capacity of 37,600 sq. ft/hr
- Impact-resistant body, LED headlight, blue warning light
- 23-gallon solution and 26-gallon recovery tanks
- Rechargeable battery, USB charger, phone & cup holders
- For indoor use in dry conditions
- Detachable squeegee assembly with storage
- Comes assembled

641811

7″ LCD
Touch Screen

641746

CAT® C20T AUTO FLOOR SCRUBBER WITH TRACTION DRIVE

- 7″ LCD touchscreen interface
- 20″ cleaning path and multiple drive settings
- Polyethylene tanks are corrosion- and impact-resistant
- 100 lb. pad pressure with heavy-duty motor

641745

CAT® C20E ELECTRIC WALK-BEHIND CORDED AUTO FLOOR SCRUBBER

- Corrosion- and impact-resistant polyethylene tanks
- Wide 20″ cleaning path for easy maneuverability
- Pad-assist feature helps pull the machine forward
- 110 lbs. brush pressure with heavy-duty motor
- Large 12-gallon solution and 15-gallon recovery tanks
- Heavy-duty cast aluminum squeegee

641757

CAT® C21V STAINLESS STEEL HEPA WET/DRY VACUUM

- HEPA filter and reusable filter bag captures fine dust
- Large 21-gallon tank capacity
- On-board tool storage and 33′ GFCI power cord
- Two large rear wheels and two front casters
- Removable canister allows for easy maintenance

641759

CAT® C16V STAINLESS STEEL WET/DRY VACUUM

- Large 16-gallon capacity tank and dolly design increase productivity
- On-board tool storage, and 15′ GFCI power cord

641758

CAT® C06V STAINLESS STEEL WET/DRY VACUUM

- On-board tool storage and 15′ GFCI power cord
- Four swivel casters provide easy mobility
- 6.6-gallon tank capacity

GLOBAL INDUSTRIAL™ ELECTRIC FOGGER

- Dispenses disinfectants in fine mist and fog to sterilize and disinfect
- Sprays 3,200+ sq. ft. in 10 minutes
- Adjustable range of 10 - 26′
- Easy to use; includes shoulder strap
- 16½′ cord

GLOBAL INDUSTRIAL™ BATTERY-POWERED BACKPACK ELECTROSTATIC SPRAYER WITH CHARGER

- Delivers up to 4.2-gallons of disinfecting mist to sterilize offices, warehouses, mass transit, etc.
- Electrostatic technology applies a positive charge to the spray droplets so they adhere to surfaces like a magnet
- More uniform coverage than conventional sprayers

GLOBAL INDUSTRIAL™ AIR MOVER WITH WHEELS

- Efficient drying power for floors, walls, and ceilings
- Industrial design has a 1 HP motor
- 3 speeds, 3 height adjustments
- Integrated wheels

GLOBAL INDUSTRIAL™ AXIAL AIR MOVER

- Speeds water evaporation time
- Designed for construction and water remediation-related projects
- ½ HP motor, 1,550 CFM
- 2 speeds, 3 height adjustments

10 WAYS TO CREATE THE PERFECT OUTDOOR ESCAPE

In the heat of the moment, you want to make an impression. Your outdoor space is no exception. It should be clean, inviting, and make your guests want to stay for a while. Whether you're looking to make quick upgrades to dining areas, or increase comfort, we have everything you need to design the ideal outdoor escape.

1. **Decide where improvements and upgrades can be made.**
2. **Understand the common temperature of the area.**
3. **Consider placing canopies around existing outdoor furniture** (page 99)**.**
4. **Install cooling fans in areas where large crowds congregate** (page 69)**.**
5. **Ensure all water fountains and hydration stations are working** (page 149)**.**
6. **Purchase new trash cans, in one color, for a quick upgrade to your space** (page 80)**.**

MILLER® SCORPION™ 9'L FALL LIMITER, STEEL TWIST-LOCK CARABINER

The lightweight, compact design provides greater mobility, safety, and versatility compared to shock-absorbing lanyards. It requires less fall clearance and prevents tripping hazards, and a visual load indicator shows when the unit must be replaced. Use as a personal fall limiter or as a traditional retractable lifeline.

MILLER® TITAN NON-STRETCH HARNESS

- Sliding back D-ring
- Universal fit with tongue-buckle legs, mating-buckle chest and shoulder straps; sub-pelvic strap
- Integrated, oversized pull-free lanyard rings
- Bright webbing color is easily visible
- Meets all OSHA, ANSI, & CSA standards
- Available in L/XL

436720

MILLER MANYARD® II SHOCK-ABSORBING LANYARD

- Stretchable, shock-absorbing lanyard
- Contracts 6' to 4' to reduce tripping, snagging, or dragging hazards
- Working load of 310 lbs.
- Warning flag to indicate that it has arrested a fall

B313421

TURBOLITE™ PERSONAL FALL LIMITERS

Honeywell MILLER

- Requires less fall clearance than traditional shock-absorbing lanyards
- High-impact nylon housing and abrasion-resistant webbing
- Attaches directly to harness back D-ring
- Rated up to a 400 lb. worker
- Meets OSHA:ANSI Z359.14 Class A & B and CSA Z259.2.2

MILLER® FULL-BODY HARNESS

- Designed to meet common fall protection needs
- Provides fundamental fall protection at an exceptional value
- 5 points of adjustment for a custom fit
- Lightweight and comfortable

708495

3M | PROTECTA

PRO™ PACK SHOCK-ABSORBING LANYARD

Durable webbing and plated alloy steel hardware for strength and corrosion-resistance. Energy-absorbing design limits fall arrest forces. User-friendly self-locking snap hooks at each end. High-quality compliance at an affordable price. 6' lanyard is compact and lightweight at 2.3 lbs. Meets OSHA 1910.66, OSHA 1926.502, and ANSI A10.32.

436801

3M | DBI SALA Fall Protection

B312014

I-BEAM TROLLEY

I-Beam Trolley provides a fast and safe tie-off point for personal fall protection systems. Installs onto I-beam flanges from 3" - 8" in width and up to 11/16" thick. Ideal for use with self-retracting lifelines. Features easy-to-use dual-adjustment dials. Meets OSHA and ANSI Z359 standards.

Honeywell MILLER

AUTO-LOCKING CARABINER

- Spring-loaded keepers with 1" gate opening
- Use as anchorage connectors
- Rated for 400 lbs. maximum capacity
- Meets or exceeds OSHA 1926.502, ANSI Z359-2007, and CSA Z259.12 requirements

B861869

GET A GRIP ON SAFETY

According to the US Bureau of Labor Statistics, hands are the second most frequently injured body part.

How to choose the right glove: Observe the physical environment where the gloves will be worn. Will the user's hands get hot and sweaty? Does the person need a thin glove to feel and handle parts? Do they use a touch screen? Will the hand get wet? If so, what kind of liquid: water, oil, gas, acid, etc.? Will they need to remove and put on the gloves to perform actions?

Liner:

Base material of the glove that provides overall strength.

Nylon Knit: Lightweight, durable fabric. Stretchy, conforms to hand.

Polyester: Durable fabric, resistant to UV rays. Slightly stretchy.

Poly/Cotton: Blended material with added elasticity.

Coatings:

Materials that determine the purpose and application of a glove.

Nitrile: Excellent dry grip, good wet grip.

Latex: Good dry and wet grip.

Polyurethane: Good dry grip. Excellent tactile sensitivity

Grip:

Imprinted patterns or parts of coating material to enhance the functionality of glove in their intended environments.

Smooth: Excellent dry grip. Liquids will not absorb into coating to keep hands dry.

Foam/Micro Foam: Channels liquids away to allow better handling in wet and dry conditions.

Crinkle: Provides added protection against cuts and punctures while channeling liquid for better handling in wet and dirty conditions.

Sandy: Added abrasion-resistance and better handling in wet environments.

Gauge:

Number of stiches per square inch. Higher gauge gloves are thinner and provide better dexterity.

B2680334

CO2 FIRE EXTINGUISHERS

Carbon dioxide is discharged as a white cloud of "snow" that smothers a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive.

Model	Lbs.
B2680334	5
B2680335	10
B2680336	15

B2680338

DRY CHEMICAL FIRE EXTINGUISHERS

ABC or multi-purpose extinguishers utilize a specially fluidized and siliconized mono ammoniumphosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats the surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator.

Model	Type	Lbs.
B2680341	ABC	2.5
B2680338	ABC	5
B2680339	ABC	10

708384

GLOBAL INDUSTRIAL™ DRENCH SHOWER

Shower is horizontally-mountable to the floor to provide quick access to overhead flushing of corrosive elements from affected areas. Pull rod-activated for immediate water flow. Includes ANSI-compliant identification sign. ETL listed 101496/ANSI Z358.1-2014. Also available in stainless steel: **708384SS**.

708387

708563 REFILL BOTTLE

GLOBAL INDUSTRIAL™ GRAVITY-FED PORTABLE EYEWASH STATIONS

This 20-gallon emergency eyewash station is portable and easily mounts to the wall of any nearby working location for quick access to eye flushing or spot washing. A drench hose on the side of the basin allows users to quickly spot-wash away chemical exposure on the body. Meets ANSI Z358.1-2009.

ELECTRODES & HOLDERS

- Electrodes conduct electricity to the base metal and act as filler material during arc welding
- Rod size and composition differ for applications and material to be welded
- Package quantities and additional specifications vary per model
- Holds an electrode and conducts electricity to it for arc welding
- Insulated handle protects user and helps them precisely guide the electrode
- Available from 1/4" to 7/32" holding size, connections and specifications vary per model

Model	Description

TAMPER-PROOF FASTENERS & TOOLS

Tamper-proof security cap screws provide an added level of security with a drive design that prevents removal with ordinary screwdrivers. Tamper-proof security cap screws are ideal for repair work or construction projects. Engineered for a high degree of tamper-resistance and offering positive-engaging, high-torque transmission while resisting cam-out and tool wear. Matching driver bit required for installation and removal. Additional specifications vary per model.

Bits for tamper-proof security fasteners allow ergonomic fastener handling and control for repair, construction, automotive, and more. Matching driver bits for Phillips pin-head, 6-lobe pin-head, socket pin-in-hex, tri-wing, opsit & Snake Eyes screws. Bits used for removable spanner nuts are also available. Drive types are Phillips, socket, spanner, spanner nut, torx, tri-wing, and trilobular. Bits are available in both imperial and metric sizes.

GLOBAL INDUSTRIAL™ GALVANIZED POWDER COAT STEEL ROOF HATCH

713150

14-gauge steel access hatch provides roof access for any building. The door seal, base insulation, and wool insulation ensure indoor climate control and reduced heating costs. Rust-resistant finish. The heavy-duty automatic lock arm secures the hatch. Comes in 2 sizes. 30x36″ and 24x36″.

GLOBAL INDUSTRIAL™ POWDER COAT STEEL ROOF HATCH SAFETY EXTENSION HANDLE

713157

Mounts to roof hatches allowing easy egress and ingress via the safety ladder while ensuring a secure grip. Heavy-duty galvanized steel is fully welded for strength and durability. The yellow finish offers high visibility while preventing rust and oxidation.

GLOBAL INDUSTRIAL™ GALVANIZED STEEL SAFETY RAILING FOR 24 x 36″ & 30 x 36″ ROOF HATCHES

713159

Telescopic safety railing has a magnetic-close swing gate. Yellow finish offers high visibility while preventing rust and oxidation. Meets OSHA 1910.28 requirement for safe egress and ingress through rooftop hatch openings and OSHA 1910.29 fall protection system requirements.

GLOBAL INDUSTRIAL™ LADDER SAFETY POST

713158

Supports fixed-ladders under access doors and manhole covers. Bracket automatically locks in the fully-raised position for stability. Easy-release lever. Supports heavy-duty ladders. High-visibility yellow finish prevents rust and oxidation. Accommodates multiple ladder types.

GLOBAL INDUSTRIAL™ MULTI-PURPOSE METAL ACCESS PANEL

602332

Designed for walls or ceilings, this 24″ x 24″ panel can be painted to match the surrounding walls, permitting unobtrusive, secure key-lock access for inspection or maintenance purposes. Frame and door are 16-gauge steel with a 1″ wall flange, concealed hinge, and an included flush cam-lock.

GLOBAL INDUSTRIAL™ ALUMINUM DOOR CLOSER

713153

Ideal for internal and external use on public or commercial buildings, closers meet ADA requirements for opening force. It can be adjusted to control the opening and closing force and speed. Backcheck cushions prevent uncontrolled opening of the door. UL 10C fire rating; ANSI/BHMA A156.4 certified.

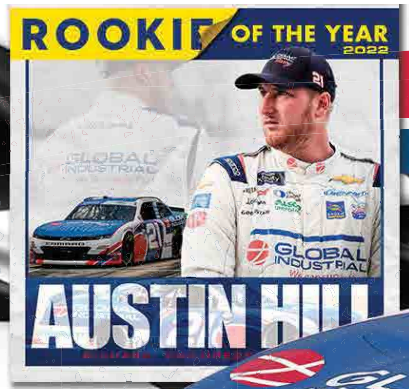
WE RIDE SHOTGUN WITH YOU AS YOU RACE TO SUCCESS.



Global Industrial's partnership with Richard Childress Racing's No.21 Chevrolet has put us front-and-center in one of the most-watched sports in the US. Congratulations to our driver, Austin Hill, who posted two big wins, one pole, 12 top-five & 21 top-10 finishes, and finished the regular season with being named the 2022 NASCAR Xfinity Series Rookie of the Year.

FOLLOW US IN 2023.
